<b>Measures taken to prevent the destruction of unsold consumer products</b>	<b>Measures planned to prevent the destruction of unsold consumer products</b>
Continuous work on bringing down JYSK's product claim percentage on damaged goods. This by identifying the appropriate quality level on products. Furthermore, focus has been on finding the right balance on the amount of packaging, to avoid both under- and over packaging.	Increased focus on goods being damaged during handling by JYSK staff, especially at distribution centres. Furthermore, a better implementation of processes around use and handling of products with the fragile symbol on packaging, to reduce damage to fragile products.
